

Mathematics at home

Term 4, 2011

How many ideas can we generate for opportunities to explore maths when on holiday?

Email jessmilne@glamorgan.school.nz and let's find out how many different suggestions this community can share. Take part in the team effort.

It's sneaky learning! - Look out for the email closer to the end of the term.

Number Hunt

Where and why are numbers used?

Where would you see numbers?

What are those numbers used for?

Families

There are some new links on this fabulous family friendly website. Click on the link above to check them out.

Maths at our house

Suggestions about ways that you can use everyday experiences and resources to explore maths.

Other resources

Links to other parts of the website that may be of use to you.

Number Knowledge activities

Activities to help develop your child's number knowledge. They include related vocabulary in Te Reo Māori, and many of them include versions with key questions translated into Māori.

And the old favourite that links you to numerous games with all the instructions. Please contact your child's classroom teacher to find out what 'Stage' they are working at.
