

KNOWLEDGE	STAGE 8	<i>Advanced Proportional</i> Part- Whole
------------------	----------------	--

At this stage these are the key pieces of knowledge the children need to learn.

Learning Outcomes									
Knowledge									
I am learning to...									
Sequencing & Ordering	Count forwards and backwards in $\frac{1}{1000}$'s, $\frac{1}{100}$'s, $\frac{1}{10}$'s 1's, 10's, etc.	1.2, 1.3, 1.4 6.43, 6.43, 6.41							
	Say the number 0.001, 0.01, 0.1, 1, 10 before/after decimal numbers	6.42, 6.52, 							
	Order fractions, decimals and percentages	0.4, 50%, $\frac{4}{5}$							
Grouping / Place Value	Know how many $\frac{1}{10}$'s, $\frac{1}{100}$'s, & $\frac{1}{1000}$'s, are in numbers to 3 d.p.	1.873 → 18 tenths, or 187 hundredths etc.							
	Know what happens when any number is multiplied or divided by a power of ten.	$1.23 \times 100 = 123$ $6.53 \div 10 = 0.653$							
	Round decimals to the nearest 100, 10, 1, 0.1 or 0.01	9.876 → 9.88							
Basic Facts	Recall fraction, decimal & % conversions for commonly used fractions: ($\frac{1}{8}$'s, $\frac{1}{10}$'s, $\frac{1}{20}$'s etc)	$\frac{1}{8} = 0.125 = 12.5\%$							
	Know simple powers of numbers to 10	$2^3 = 8$							
	Use divisibility rules for 2,3,4,5,6,8,9,10	<i>276 is divisible by 3 because $2 + 7 + 6 = 15$</i>							
	Identify common factors of pairs of numbers to 100	<i>Highest common factor of 72 & 81 = 9</i>							
	Identify lowest common multiple of pairs of numbers to 10	<i>The LCM of 6 & 8 = 24</i>							
	Recall prime numbers to 20	e.g. 1,2, 3, 5, 7..
